Karen,

I spoke to Adam a few moments ago and told him that we did not have any objections to their sampling plan, and to go ahead and work with the facility personnel and our consultant to schedule the sampling. I don't know of any issues for DP&L that would delay sampling - although access to some of the wells may take some coordination (at least one well is in the main driveway for our trucks).

Please do not hesitate to call me if you have any questions or concerns.

Thank you,

JoAnne Rau

Hi Joanne, if you can go ahead and let CRA know when they can sample the existing wells at the DPL Dryden Road facility for the South Dayton RI/FS I would appreciate it since CRA is out in the field sampling other groundwater wells at the site now.

The CRA contact is Adam Loney who can be reached at aloney@craworld.com or at 519-884-0510 X2287 or at 519-502-2897 (cell).

Thanks and please let me know if you have any questions or would like to discuss this further.
